

# Retirement Investors' Club (RIC)

# 457/401a Program Summary

#### **Definition**

The Retirement Investors' Club (RIC) is a voluntary retirement savings program offered by your employer. RIC is designed to help you increase your personal savings for retirement and lower your current taxable income. RIC contains two plans: a 457 plan for employee payroll deductions and a 401a plan. RIC's 457 savings plan helps you fund your retirement along with your IPERS and social security benefits. The 401a plan allows you to roll funds into RIC from eligible former employer plans and IRAs.

#### **Contributions**

- Deductions in the amount you choose (minimum \$25/mo, maximums shown below) are automatically taken from your payroll before state and federal income tax.
- You may change your contribution amount at any time on the RIC 457 Account Form.
- Your deductions are sent to your RIC provider to be invested as you have directed

**2010 IRS Maximum Contribution Limits** (Please Note: The total of all contributions made to this 457 plan and/or any other government employer's eligible 457 plan in a tax year, must not exceed the IRS maximum regular limit of \$16,500; \$22,000 for employees age 50 or older, and \$33,000 for qualified 3-Year Catch-Up participants.)

A Savers' Credit of up to \$2,000 may be available depending on your adjusted gross income level. Consult a tax professional if you have additional questions about this tax credit.

#### **Investment Selection**

Whether your investment need is for safety, income or growth, the investment providers offer a variety of investment options in each of the catagories shown in the chart to the right. Changes to investment selections and/or providers within the plan may be made without fees or restrictions.
